About

PRISHTINA COMMON GROUND SUMMER FESTIVAL 2014 is 3 days of events to transform the most exciting public spaces and abandoned sites in Prishtina in new common ground for art, leisure, food and international professional exchanges. **Public Actions** and **Walkscapes** with historians, architects, cultural activists and government officials will let you discover the boundaries of the old town, the legacy of modern architecture, the waterscapes and ways of living in Prishtina. **Exhibitions and workshops** will show new devices to interpret the typologies of public spaces, the art instruments to start-up a common place and traditional meeting places related to the exchange of goods, body care, prayer. The **Public talks**, **Public Lectures** and **Public Tea** will allow you to test a common vision for the city, discuss strategies for multiculturalism and know local actors and European experts who will provide their own tools for the regeneration of urban public spaces.
